Ohio man arraigned in 2017 murder of Egypt Covington

By Rosemary K. Otzman
Independent Editor

On Sunday afternoon, Timothy Eugene Moore, 34, of Ohio was arraigned at 34th District Court on nine felonies, including first-degree murder, in the June 22, 2017 death of Egypt Covington at her Van Buren Township home.

A 11 a.m., Nov. 18 probable cause conference by Zoom was set in front of 34th District Court Chief Judge Brian Oakley for Moore, who is in the Wayne County Jail without bond.

The original charges are:

Moore

- Homicide – murder first degree – premeditated;
- Homicide – felony murder;
- Home invasion – first degree;
- Weapons – firearms – possession by felon; and
- Weapons – felony firearm.
- Four charges of felony firearm were added.

The police department of record for the case is listed as the Michigan State Police and officer in charge is MSP Detective/Sergeant James Plummer.

On Nov. 4, Van Buren Township Public Safety Director Gregory Laurain announced that police had arrested two suspects in the 2017 murder of Egypt Covington in Van Buren Township.

He said Van Buren Township police

have been working in cooperation with the Michigan State Police and two persons were taken into custody. He said the investigation continues and police were not releasing any further information at that time.

The second person detained was freed after charges were not brought within the 72-hour limit.

Covington was found dead with a single gunshot wound to the head in her duplex on Hull Road on June 23, 2017. The only witness to the killing appeared to be her small dog Ruby. Those living in the other unit were away at a festival in another state.

Covington, 27, was found by her boyfriend who was to be moving in with her soon. He said she didn't answer her texts or phone when he called to tell her good morning, as

he usually did, so he drove to her home to check on her.

He found her body bound with Christmas lights on the floor of the living room.

The current boyfriend and a former boyfriend at first were considered suspects by police and later dropped.

"We're happy it's moving forward," said Egypt's father Chuck Covington on Monday, referring to the case. "We're happy. We're sad. We need to find out why. She's still not here."

"We're waiting to find out why. Why?" he said of the reason for the murder.

It was not known if the \$30,000 reward offered by Crime Stoppers for information in the murder led to a tip that brought the arrest.

Man who robbed Chase bank in Belleville immediately arrested

On Saturday, Nov. 7, at approximately 10:40 a.m., the Belleville Police Department was dispatched to the Chase bank at 465 Main St. on a report of a robbery in progress.

In a news release, Belleville Police Chief David Robinson reported that officers from Belleville and Van Buren police departments responded, but the suspect was gone upon arrival.

It was determined that the suspect entered the bank and presented a note to the teller demanding money, Chief Robinson reports. Although unspecific violence was mentioned, there was no weapon seen or implied.

Due to a quick response and information sharing, a potential suspect was located near Horizon Park. Investigative efforts determined that this suspect was the perpetrator of the bank robbery and he was

taken into custody, according to the news release.

The suspect arrested was Joe Stafford, 55, with identification from the State of Georgia. Stafford was arraigned in 34th District Court by Chief Judge Brian Oakley on Tuesday morning on one count of bank robbery with the included enhanced charge of Habitual Offender – Fourth Offense.

Bond was set at \$10,000/10%.

Based on a law enforcement information sharing database, Stafford may have also been involved in a similar crime at the Chase bank at Canton Center Road and Michigan Avenue on Nov. 5, which is currently under investigation.

"The arrest of this individual is an example of excellent police teamwork

between jurisdictions that we benefit from through the professional and excellent relationship we share with our neighboring communities," said Chief Robinson. "Credit should also be given to the partnership and willingness of our citizens and businesses to step-up and assist us in reporting crime and in our investigative efforts"

Van Buren School Board passes added COVID detail, 5-1

By Rosemary K. Oztman
Independent Editor

The Van Buren Public Schools Board of Education gave School Supt. Pete Kudlak the power to change district learning from in-person and remote to all remote without a vote of the board.

At Monday's meeting of the board of education the vote was 5-1 to approve Supt. Kudlak's request for the change to the Extended COVID-19 Plan Approval. The plan needs to be confirmed every month and sent to the state.

Board President Amy Pearce was not present at the meeting because she reportedly was in quarantine.

Supt. Kudlak said he made a modification as to what could be done if they had to go all remote. He said he asked the board's attorney and the attorney said the amendment could just be added to the plan and the board would vote on the plan as usual.

Outgoing board Trustee Keith Johnston voted against confirming the plan with the new amendment giving Kudlak the power to change the method of education without a vote of the board.

"I'd like to the public to have a say," Trustee Johnston said.

"If there was an outbreak in one building, I could close one building," Kudlak explained. "It gives flexibility."

"I think public input is more important," Johnston said, noting a special board meeting can be called for a vote.

Kudlak said this is a COVID-related change and a parent who wants in-person classes wouldn't want that if there were 42 positive cases.

Vice president Susan Featheringill, who was chairing the meeting, asked Johnston if he was uncomfortable voting now, and Johnston said, "No, I would vote no right now."

Trustee Simone Pinter said if the health department recommended closing the

classrooms now, the board would have to have a board meeting to do so.

Johnston said he didn't feel comfortable having Kudlak make the decision.

Kudlak said the health department could come in and say the district is in Phase 3. He said if Wayne County decides the rates are too high, they could give a recommendation to close and the board decides whether to listen to that.

When the board discussed how long Kudlak could shut down in-person learning, Kudlak said he thinks it would be short-term, keeping the students out for a while. Long-term would be closing the classrooms until February.

"I think this is a safety thing," Kudlak said. "If we feel it's not safe to have kids in there, we could close for a two or three-week period."

He said the health department gives an update every two weeks and gives a recommendation.

"While in our building, they are super-safe," he said of the students. "I guarantee, they're not acting that way at home."

Kudlak said the health department recommends how long it takes to clear up an outbreak.

In other business at Monday's meeting, the board:

- Received information on a proposed crosswalk from Country Walk subdivision to Savage Elementary School that would save two school bus runs into the subdivision. The project has been under consideration for about a year and a half and involves reducing the speed in front of the school to 25 mph during school hours and putting in a device where students could push a button and it would stop traffic. A traffic study showed there is not enough traffic for a full light. A \$21,695 lump sum to Spaulding Dedecker to complete civil engineering design work is being recommended as a first step and will be considered at an upcoming meeting;

- Received information on Plante Moran Bid Packet #2 (Group A) for the next part of the Early Childhood Development Center now under construction southeast of the high school. The packet will be brought to the next meeting for a vote;

- Was introduced to the new student board member Olivia Sylvestre, who is senior class president. She told the board she is in remote learning and it has been going very well for her;

- Approved hiring the following remote teachers: Amanda Haas at Tyler Elementary, Khaii Mason at Savage Elementary, Emily Nadrowski at Edgemont Elementary; and Kimberly Lammers at Rawsonville Elementary; along with

remote interventionist Cristine Gulu at Rawsonville Elementary;

- Accepted the resignation of Brenda Thomas from the Transportation Department after one year of service; and the terminations of Yvette Gorecki from Transportation after six years of service and Michael Dotson from Plant Operations after one year of service;

- Approved the employment of custodian Christopher Tharpe and IT support representatives Hussein Alakhrass and Devin McCafferty; and

- Heard presentations from Haggerty, Savage, and Tyler schools on their programs.

School Supt. urges COVID safety rules

Pete Kudlak, superintendent of the Van Buren Public Schools, urged the Belleville-area community to practice safety procedures to keep the COVID-19 pandemic at bay in this community.

At Monday's regular meeting of the board of education he said he sees a lot of people hanging out in the park at Five Points and there are no masks. That concerns him.

He said there have been just eight positive COVID-19 tests of staff and students in the Van Buren district and 45 people have been quarantined. He said all the transmissions came from the outside the school and no transmissions were in their district. Most knew exactly where they had the contact, he said.

Supt. Kudlak said there are more likely to be transmissions among those who are coming to school in person. He said a lot of families need to have their kids at school because of baby-sitting issues, emotional needs, and other reasons. That's why an all-remote-learning district would be hard for families, but that's where the district would head if the numbers rise.

He called for the community to practice good behaviors outside the school district and to remember the more times you are putting yourself at risk outside the school district the more likely you are to bring it into the school district.

"We've got a good thing going and we want to keep it," Kudlak said, referring to the low incidence of positive tests in the district.

EXTRA THINGS I KNOW

...By Rosemary K. Otzman

We looked up the background in the Michigan Department of Corrections listing on Timothy Eugene Moore, who was charged in the murder of Egypt Covington. It's very strange. It says he was in prison on a charge of assault with intent to rob while armed, which happened Nov. 3, 2008. He was discharged Sept. 4, 2018. Egypt's murder took place in June 2017, so this person was still in prison.

Maybe there are two people named Timothy Eugene Moore with the same birthdate of Feb. 13, 1986. Stranger things have happened.

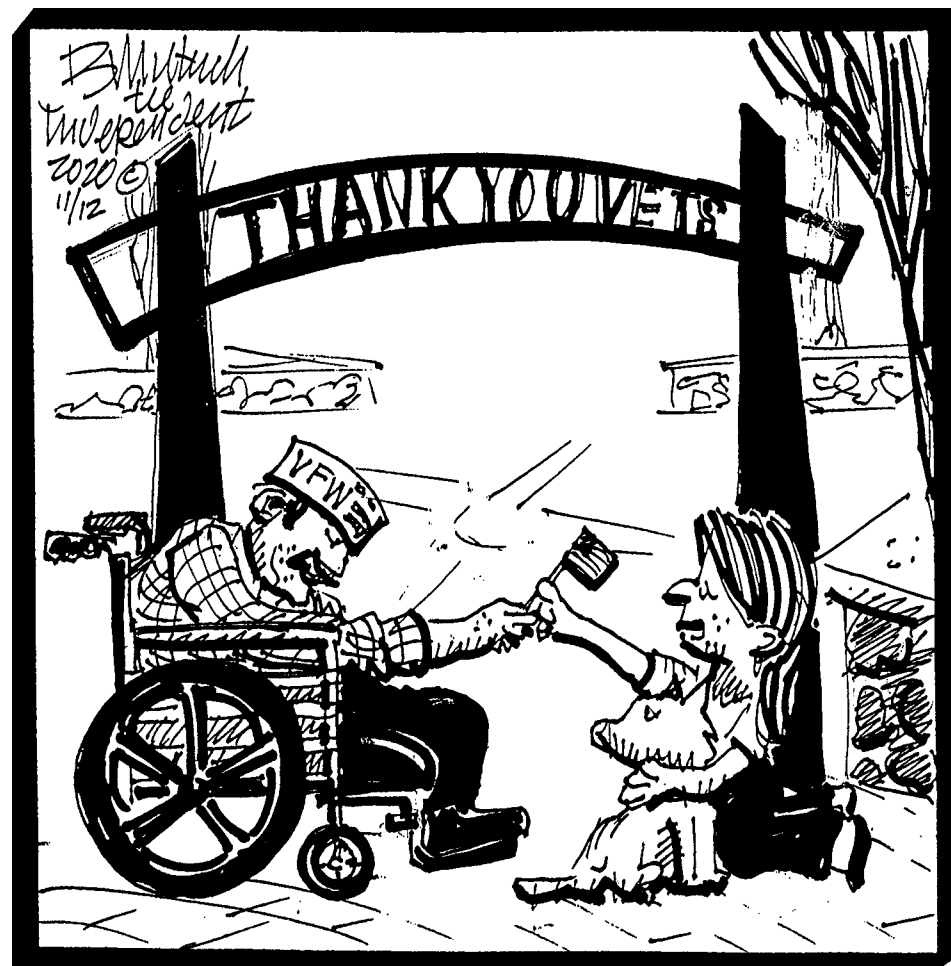

Bill Wolters of Stoney Creek Motorsports reported he came into his shop at the corner of W. Columbia Avenue and High Street in the City of Belleville on Sunday, Nov. 1, to clean up the place, the way he always does on Sundays.

But, that Sunday he found a broken window on the lake side and thousands of dollars of missing equipment and vehicles, some of which were owned by others and he had been working on.

Belleville Police Chief David Robinson said there are currently no leads in the case, which is under investigation.

The virtual art show put on by the Belleville Area Council for the Arts is delightful. Visitors can tour the artworks as many times as they want, from the comfort of their homes. Go to www.bacaart.org.

During the presentations from Haggerty, Savage, and Tyler schools at Monday's regular meeting of the Van Buren Public Schools Board of Education, the word

"pivot" got tossed around a lot.

The teachers were indicating that just when they thought they had something set, the pandemic forced them to pivot and do something else.

"You pivot and then do the best you can," one said. Sounds like the way you have to face life in general.

During the discussion on learning at Savage Elementary School it was noted that students now are using the outside classroom doors to enter and exit their classrooms to avoid contact with students from other classes.

Do you remember how Savage and Elwell Schools were ridiculed as being designed as "California schools" because the classrooms had outside doors that people in Michigan didn't need.

Time to "pivot" on that idea.

I was really glad to attend a school board meeting in person on Monday since I hadn't been to one since spring. They have had Zoom meetings through the pandemic until recently. This was the board's third in-person meeting. But I've been busy on Monday nights, until this week, since my son fell out of the tree. I had to work with someone who came after his real job ended on Mondays and Tuesdays to put out the paper.

We met Monday in the Belleville High School Commons. Everyone wore a mask and we were asked to sit one to a table. It looked like everything was well thought out.

Then it was announced there will be no microphones because the person who took care of that was in quarantine. Also, the board president Amy Pearce was absent because she was in quarantine, too.

We were assured they would use their outdoor voices so everyone could hear. They didn't. We couldn't hear. One woman left the meeting after she complained she couldn't hear and they told her to move closer and then continued to talk in normal voices.

I was sitting close to the front and I couldn't hear and I thought it was my problem. After the meeting, I learned many couldn't hear them. Why go to a meeting if you can't hear what's going on? And, the meeting wasn't video recorded since the guy who does the microphones also does the videos.

A microphone was used during the reports on the schools, but it wasn't touched by any board members. What a disappointment.

For some reason, we ran out of newspapers last week. Someone took too many, I guess. On Sunday I got a call saying people are saying we stopped publishing. We haven't stopped. Please, take just what you need and all will be well.

Thank you for electing me to township board

To the residents of the Charter Township of Van Buren:

Thank you for electing me as a member of the Trustee Board for the Charter Township of Van Buren. I would also like to express my thanks to outgoing Trustee Paul White. Paul provided the township with good, sound service and he is going to be missed.

It will be an honor to serve the people of Van Buren. As I stated during my campaign, I believe that we must not lose sight of the many positive advantages enjoyed by our township. We cannot go in the direction of indiscriminately slashing budgets, discouraging (denying) sound economic development, or erode programs that define and identify our township as a desired place to live, work, and play. To manage this change effectively, I believe that we will need a balance of new ideas, experience, and ability to think through crucial, complex issues on the township board.

Together with the other elected trustees and officials, I look forward to the opportunity to serve you with bold, responsible leadership and a comprehensive strategy as we continue to work hard to meet the objectives and challenges that lie ahead.

Thank you!

Donald Boynton, Jr.
Van Buren Township

Are we a Winner or a Loser?

To the editor:

We really had an interesting presidential election. But the people's votes prevailed: A new President and Vice President!

There are tears of joy and tears of pain. As a country who believes in the vote of the people we must stand together, pick up our needle and thread and sew our country back together. We must include Justice, Equality and Empathy in reconnecting our country. The world is looking at us and hoping that the new administration will listen to the people's wishes -- of course, there will be differences but as a United Country we must listen to both sides. Our new President must be a responsible leader and be responsible for his actions, whether right or wrong.

Hopefully, I would like to see that our President-Elect will listen to the experts in medicine, vaccine formulation and consider talking with Dr. Anthony Fauci and think about the young teenager Miss Anika Chebrolu who won America's Top Young Scientist Award. She has been working on a virus vaccine project for quite sometime. As the quote from the Bible, Isaiah 11:6 -- "A little child shall lead them."

I am wishing that our new elected officials

can work together in the Congress and bring Back America Bigger and Stronger!

He was charged with domestic violence third offense and assaulting / resisting / obstructing a police officer on March 2 in VBT.

The complainant was not present so the third-offense charge was dropped by the prosecution and reduced to a misdemeanor.

Officer Rini, who has served 13 years with the VBT Police Department, was the only witness. He said on March 2 he was dispatched to 41450 E. Archwood Drive on an assault. A man was outside who matched the description of the assaulter and he refused to give his name. He was arrested for interfering with a police investigation. Police grabbed his arms and handcuffed him.

Sanders' defense attorney Ben Gonek said Officer Rini had multiple opportunities to talk to the victim for the ID and his client

was resisting an illegal arrest.

Gonek asked if you don't give your name you get arrested?

Nicholas Wayne Leffler

On Oct. 27, Judge Green adjourned the bench trial for Nicholas Wayne Leffler, 29, of Sumpter Township, until 11 a.m., Monday, Nov. 30.

The bench trial had been set for Oct. 27 and defense attorney John Day said he had not received the police reports, which he said he had told them before.

Sumpter Township prosecutor Rob Young said there were no pictures or video, but he had a police report and asked Judge Green if it was OK to take five minutes to copy the report for Day. Judge Green agreed and a court officer went across the hall to photocopy the report. After he received the report, Day and Leffler met together to discuss the report.

When they came back, Day noted that the operating a ORV in the road citation on 4:15 p.m., June 2, 2019 was dismissed. Judge Green said the court dismissed it on Aug. 29, 2019 because the ticket was written incorrectly.

Sumpter Officer George Salajan told Day a box needed to be checked and wasn't.

Judge Green said the ticket was dismissed and then reissued with an Aug. 29 date, but it should have been June 2. She said civil infractions are different and have to have the date of offense because the officer swears under penalty of perjury.

The charges now are RV in driveway and careless driving.

Day made a motion to dismiss the charges because it says they happened Aug. 29.

"I'm going to allow them to amend the charges," Judge Green said, referring to Sumpter. She said if Day thinks it's more complicated and needs more time, the bench trial can be adjourned.

Young said he had no problem with adjournment and made a motion to amend the tickets.

"We're sticking with this report," Judge Green said, referring to the report Young had provided. "There are no other reports."

Day said the defendant said police told him they had pictures and video. He said they may bring witnesses in.

Maurice Schropshire

Maurice Schropshire, 26, of Van Buren Township, waived his preliminary exam on

Oct. 27 before Judge Green and was bound over to circuit court for an arraignment on the information on Nov. 10. Schropshire is charged with assault to do great bodily harm less than murder and domestic violence on April 6 in VBT. He is free on \$10,000 personal bond. His defense attorney is Daniel Waszak.

Susan Kathleen Dodge-Doak

Susan Kathleen Dodge-Doak, 48, of Plymouth is charged with criminal sexual conduct – 1st degree (person under 13) on Jan. 1, 2017 in Van Buren Township.

She was before Judge Green on Oct. 28 where her case was adjourned to a 9 a.m. Jan. 13 Zoom probable cause conference. Wayne County Assistant Prosecutor Ragan Lake said she was trying to get information on child proceedings from Oakland County and it is expected to take more than 30 days.

Defense attorney is Shawn Patrick Smith.

Michael Ray Malone, Jr.

Michael Ray Malone, Jr., 22, of Westland and previously of Sumpter, is facing charges of carrying concealed weapons and driving while license suspended/revoked/ or denied on Oct. 13 in Belleville. He is free on \$2,500 personal bond.

His case was before Judge Green on Oct. 28 and one charge was adjourned because it's a gun board case. His adjourned probable cause conference is scheduled for Dec. 2. His defense attorney is Glen Oh of the Neighborhood Defender Service.

Tiara Renea Malone

Tiara Renea Malone of Eastpointe is charged with assault with a dangerous weapon (felonious assault) on Aug. 24, 2019 in Van Buren Township. On Oct. 28, Judge Green adjourned her probable cause conference until Nov. 9. Her defense attorney is Glen Oh of the Neighborhood Defense Service. She posted her \$3,000/10% bond.

Bianca Ilianalydia Martinez

Biana Ilianalydia Martinez, 34, of Ecorse is charged with operating while intoxicated/impaired/controlled substance-3rd offense and open alcohol container in the vehicle on Oct. 21, 2019 in Van Buren Township. Judge Green adjourned the hearing for drug treatment in 25th District Court and set a probable cause conference on Nov. 9. Her defense attorney is John DeYampert, Jr.

Elizabeth Chalupka a delegate to Congress of Future Medical Leaders

Elizabeth Chalupka of Sumpter Township, a senior at Michigan Virtual Charter Academy, is a delegate to the Congress of Future Medical Leaders on June 25-26, 2021.

The Congress is an honors-only program for high school students who want to become physicians or go into medical research fields. The purpose of this event is to honor, inspire, motivate, and direct the top students in the country interested in these careers, to stay true to their dream and, after the event, to provide a path, plan, and resources to help them reach their goal.

Elizabeth is the daughter of Daniel and Denise Chalupka. Her siblings are Annaleigha, Amethyst, and Braedan.

Elizabeth attended Custer Elementary School in Monroe and McBride Middle School in the Van Buren Public Schools. She plans to become a pediatrician specializing in neonatology.

Elizabeth's nomination was signed by Dr. Mario Capecchi, winner of the Nobel Prize in Medicine and the Science Director of the

National Academy of Future Physicians and Medical Scientists, to represent Michigan based on her academic achievement, leadership potential, and determination to serve humanity in the field of medicine.

During the three-day Congress, Elizabeth will join students from across the country and hear Nobel Laureates and National Medal of Science winners talk about leading medical research; be given advice from Ivy League and top medical school deans on what to expect in medical school; witness stories told by patients who are living medical miracles; be inspired by fellow teen medical science prodigies; and learn about cutting-edge advances and the future in medicine and medical technology.

This is a crucial time in America when more doctors and medical scientists are needed who are even better prepared for a future that is changing exponentially, according to leaders of the Academy. Focused, bright and determined students like Elizabeth are America's future and she deserves all the mentoring and guidance we can give her, they said.

The Academy offers free services and programs to students who want to become physicians or go into medical science. Some of the services and programs the Academy offers are online social networks through which future doctors and medical scientists can communicate; opportunities for students to be guided and mentored by physicians and medical students; and communications for parents and students on college acceptance and finances, skills acquisition, internships, career guidance and more.

The National Academy of Future Physicians and Medical Scientists was founded on the belief that prospective medical talent must be identified at the earliest possible age so these students can be helped to acquire the necessary experience and skills to take them to the doorstep of this vital career. Based in Washington, D.C. and with offices in Boston, MA, the Academy was chartered as a nonpartisan, taxpaying institution to help address this crisis by working to identify, encourage and mentor students who wish to devote their lives to the service of humanity as physicians and medical scientists.
